

A New Way to Register Your Team!

Effective September 6th, 2016

In an effort to make the managerial task easier and more efficient, teams will now have the ability to register for a session without submitting a \$300 deposit. Individual player payments will now be an acceptable way to initially register your team!

In order to do so and in order to reserve a spot in the league, the following three guidelines must be met:

1. At the time of registration, **as long as it's prior to the registration deadline**, teams can be signed up with an individual payment amount. (For example: If a team fee is \$500 and a team has 10 players, a \$50 payment will be enough to sign up).
2. Once a team is registered, they have until midnight of the registration deadline day to continue submitting their individual payments to reach the \$300 threshold. Once that is accomplished, the team is officially registered. Their remaining balance is then due the day of their first game.
3. **If the \$300 threshold is not met by midnight of the registration deadline day**, the manager's credit card will be charged the amount necessary to reach \$300.

Additional Notes:

The manager's credit card number must be kept on file at the time of registration. Teams attempting to register after the registration deadline must submit a \$300 deposit to sign up.

Required membership payments must be purchased or renewed along with each individual payment

The initial payment submitted will be treated as non-refundable, similarly to how the deposit system works.
